

STALMINE-WITH-STAYNALL PARISH COUNCIL

12 October 2021

CLERK'S REPORT

Planning enforcement

The Freedom of Information request submitted to Wyre Council on 29 July requesting information on planning enforcement action within the parish has now been answered. A copy of the documentation is included in the councillors' pack of documents.

Footpath signage

The plantsman has started placing the posts and will continue doing this, weather permitting. A request has been made for bridleway signs. An additional 'decal' indicating the Wyre Way will also be needed as the lane by The Heads that forms part of the Wyre Way is not a designated public footpath, therefore a normal fingerpost cannot be placed there.

Dog fouling

This remains a problem throughout the parish. The issue of people actually picking up dog waste and then throwing it into fields and hedges is also a problem.

Irresponsible dog owners

A number of complaints have been received regarding dogs being allowed to run free on private land and chase wildlife unchecked by their owner.

Fly tipping

Two instances of fly tipping have been reported to Wyre Council this month.
